We, at Rosedale & Rosehill Cemetery, adhere to the philosophy of providing high quality service to our families while maintaining particular attention to the care of our grounds. Surrounded by broad lawns, flowering shrubs, shade trees, fountains and statuary, the cemetery has created an atmosphere of peace and tranquility in which our families can grieve and remember their loved ones. Our gentle environment provides a place for caring individuals to meditate and commune with our Maker.

We offer a choice of upright monuments or flush-to-the-ground bronze markers, as well as indoor/outdoor mausoleums. Moreover, our establishment provides cremation services at our Rosehill Cremation Center.

Ideally situated in the Metropolitan/New Jersey areas, Rosedale & Rosehill Cemetery recognizes the importance of informed decision-making when a loved one has died. There is no rehearsal for the death of a loved one, but our well-trained staff is ready to assist all families on their journeys. Knowing what to expect and how others have handled themselves in similar situations can be very helpful. There is no right or wrong when it comes to death and planning.

The anguish that often occurs when funeral arrangements must be made unexpectedly, in shock and grief, can be minimized at Rosedale & Rosehill Cemetery because cemetery selections can be made well in advance of need. It is a great comfort to have arrangements taken care of in advance. Furthermore, it is a wise investment since cemetery property is constantly growing in value.
